I hope you’ve enjoyed reading this family history. It is entirely based on information compiled by my mother (Ida) and then originally typed for her by John or Elaine (or both, I’m not sure which!) Hughes.

I apologize for any errors or inaccuracies you may discover. I tried to make all the corrections that my mom had written into her copy of the book, and hope I didn’t miss any. If anyone has corrections or additional information on family members from any of the previous the Johnson generations, I’d love to add it to this compilation and share it with the rest of the cousins.
